Fax 0865175501
Registration No.: 2006/033937/07

January 2007

DTA (Pty) Ltd has been in the international drug testing industry for more than 10 years. We develop and distribute top quality, on-site diagnostic testing kits to various industries both in the public and private sectors including the mining and heavy industry within Africa and Australia.

Due to market demands and logistic requirements, we have opened a South African depot, which will provide the South African based customer a direct point of contact locally. Other branches are based in Europe, Australia, New Zealand, Russia and the Philippines.

The amount of revenue lost in business as a result of health issues is astronomical. More and more South African companies are advocating HIV and safety campaigns amongst their staff and this is pushing up costs restricting the benefits that could be realized from such campaigns. We believe that our products that test for occurrences of alcohol, various drugs, TB, HIV, as well as cardiac markers, will assist organizations by being extremely cost effective providing immediate and reliable results.

Our South African depot can provide day-to-day deliveries to your organization.

Please do not hesitate to contact us should you require any further information.

We look forward to assisting you.

Regards
